

CONTINUING EDUCATION CREDIT

This activity has been planned and implemented in accordance with the IMQ and the CMA's CME accreditation standards through the PCC. The PCC is accredited by the Institute for Medical Quality/California Medical Association (IMQ/CMA) to provide continuing medical education for physicians. The PCC takes responsibility for the content, quality and scientific integrity of this CME activity. The PCC designates this educational activity for a maximum of **3.5 AMA PRA Category 1 Credit(s)**TM. Physicians should only claim credit commensurate with the extent of their participation in the activity. This credit may also be applied to the CMA Certification in Continuing Medical Education.

This course meets the qualifications for **3.5** hours of continuing education credit as required by the California Board of Behavioral Sciences (Provider # PCE1355) for those holding MFT or LCSW licenses. This course is approved by the California Board of Registered Nursing (Provider #CEP6003) for **3.5** contact hours.

AUDIENCE: M.D.'s, Psychologists, MFT's, LCSW's, Registered Nurses, and other learners interested in developing psychoanalytic understanding.

OBJECTIVES:

1. Learners will more readily be able to recognize material from the deep part-object layers of archaic mental life of the patient's experience and distinguishing this from later, object-constant, whole-object layers of experience.
2. Learners will increase their capacity to recognize between what archivally, or actually, happened to the patient as against how the patient autochthonously, or self creatively, believed he or she was the agent of cause and so created the event encountered.
3. Learners will increase their technical capacity to use interpretations that address unconscious phantasy.

PRESENTERS

James Grotstein, M.D., is Clinical Professor of Psychiatry at the David Geffen School of Medicine, UCLA, and Training and Supervising analyst at the New Center for Psychoanalysis and the Psychoanalytic Center of California, Los Angeles. He is a member of the Editorial Board of the International Journal of Psychoanalysis and is past North American Vice-President of the International Psychoanalytic Association. He has published over 250 papers including, “The Seventh Servant: The Implication of the Truth Drive in Bion’s Theory of ‘O’” (International Journal of Psychoanalysis), “Projective Trans-identification: An Extension of the Concept of Projective Identification” (International Journal of Psychoanalysis) and most recently “Dreaming as a ‘Curtain of Illusion’: Revisiting the ‘Royal Road’ with Bion as our Guide” (International Journal of Psychoanalysis). He is the author of many books, including, *Who is the Dreamer Who Dreams the Dream: A Study of Psychic Presences* (2000) and *A Beam of Intense Darkness: Wilfred Bion’s Legacy to Psychoanalysis* (Karnac 2007). His most recent book is a two volume work on psychoanalytic technique, “...But at the Same Time and on Another Level...” *Psychoanalytic Technique in the Kleinian/Bionian Mode*. (Karnac 2009). He is in the private practice of psychoanalysis in West Los Angeles.

John Lundgren, M.D., is a Training and Supervising Analyst and Past President at the Psychoanalytic Center of California in Los Angeles. He also serves as Associate Clinical Professor of Psychiatry at UCLA where he was a co-founder of the Tavistock Group Relations Experiential Training Laboratory. He practices psychoanalysis and organizational consultation in Beverly Hills.

PROGRAM

Dr. Grotstein today presents a clinical explication of the ‘Psychoanalytic Technique’ chapters (i.e. 3 and 4) from the second of his two-volume work: ... ‘*But at the Same Time and on Another Level...*’ *Clinical Applications in the Kleinian/Bionian Mode*.’ In order to facilitate the audience’s understanding, Dr. Grotstein gives an overview of the different interpretative filters provided by the work of Freud, Klein and Bion. With some of his own ideas about technique in mind, Dr. Grotstein focuses on illustrating how the analysts listens and frames interpretative understanding to the patient.

In the next part of the day’s presentation, Dr. Grotstein responds to questions posed by Dr. Lundgren that aim to draw out further implications in matters of technique. After this interview, the discussion is expanded and will then be opened up to the audience for further questions and exploratory comments.

In the next portion, Dr. Grotstein takes up his own clinical material from chapters 8 and 9 followed by questions from Dr. Lundgren and the audience. Dr. Grotstein will close with his recent thoughts on psychoanalytic technique.

FOR REVIEW:

It is strongly recommended that all attendees read chapters 3,4,7,8 and 9 from Part II of Dr. James Grotstein’s Technique book prior to the conference.
